

I would like to voice my concern regarding LPFM taking priority over current FM translator service. If this passed we would lose our channel K-LOVE out of Raleigh NC. K Love not only provides much needed Christian music; family friendly, with no foul language it provides local information also. Helping keep the community up to date on things happening in our area. I don't believe we could find a channel that our children could listen to without concern if KLOVE was replaced by LPFM radio. Children who listen to the junk on other channels are more likely to be negatively influenced and therefore more negative in the community and school. I believe we should not allow LPFM stations to take priority over FM translators already out there.
